IF THIS SOUNDS FAMILIAR

You're brilliant at what you do. The admin around it is drowning you.

THE PHONE NEVER STOPS

Missed calls = lost bookings

You're mid-appointment. The phone rings. You can't answer — the booking goes elsewhere.

NO-SHOWS KILL YOUR DAY

Empty chairs cost real money

An empty 2pm slot is income gone. Chasing confirmations every evening is exhausting — and they still skip.

YOU'RE CLOSED, THEY'RE NOT

Best clients book at 11pm

If you're not open to take the booking from the sofa — via DM, web or text — someone else is.

MEET RESERVENI

One platform. Every booking. Zero chaos.

The booking system you'd build yourself, if you had six months and a software team. **Set up in minutes. Live the same day.**

Win back 10+ hours a week

Clients book themselves online, 24/7. No phone tag, no late-night DMs.

Protect income with deposits

Take a deposit on any booking. Funds settle direct to your bank via Stripe — we never hold your money.

Cut no-shows automatically

Email and SMS reminders go out on autopilot. Clients show up — or cancel in time for you to rebook.

Every client, every detail

History, preferences, allergies, notes and spend — all in one place. Recognise regulars instantly.

Look bigger, grow faster

A polished booking page, branded confirmations and a QR code on your counter. Confidence books again.

Fair, honest pricing

One flat subscription. Zero commission on bookings. Free personal onboarding for every NI business.
